PLUMES.—The market has ruled dull and heavy for the past week. There is no demand, and holders are not pressing upon the market. Sales in large quantities have been made, but small sales have been selling as high as \$5.00, and one or two shipping lots sold, early in the week, at this figure. Classic brands round hoop Olois extra marmalade themselves higher in the New York market than most other varieties, and the Shoppes of New York note an advance of 10c per lb. A few days ago, we received a report from a house in Boston, of a desire to sell for \$1.00 per lb. This may be regarded as a fair estimate for good extra; superior, unusually \$1.25, double extra \$1.50.

BEEF.—Selling by mills for city use, at \$4.25.

COW MAIL—\$1.00 per cwt. from the mills.

WHEAT.—The market has ruled extremely dull, for the past week, and has shown no tendency to improve. A few carloads only per day, which have sold at \$1.20, are apparent.

IMPROVEMENT which is due to light receipts. We notice that the decline in price is checking receipts at all the grain ports; but it is doubtful whether a general stoppage would materially affect market, in view of the fact that the grain is being sent to the West, and the grain is being sent to the ports, awaiting to be forwarded. We quote red 50c; best white nominally \$1.20.

COAL—Considerable sales have been made at about the figures of last week, though the market has tended downward, with some sales by the car-load at a ceiling of 15c. The figures have been \$2.50c; the farmer on track and road, 15c on track, board, and which is equivalent to about 20c on road.

GATES—Have been very dull. New sales have to a considerable amount at 6c, which is a decline. Sales on Saturday were made at 4c. The small lot of old sold at 45c; which is much below the views of holders now.

IRON.—No change in quantity at 25c.

HARLEY—Has sold a range of \$1.00—\$1.50—the latter for very choice. The excitement which existed a week or two ago has subsided, and the market declined rapidly and is still trending downward.

BEANS—Steady at 15c—16c.

WHEAT—Now at 20c—21c.

PEAS—We reduce our figures for white, to \$1.25 per lb ordinary, and \$1.50 per lb for Detroit River. In other kinds no change.

BAY—Is selling down, at \$1.00 per lb for timothy.

OILS—Linen is testing downward. We quote it at 85c, which is a decline. Other varieties are unchanged.

WAX—We quote Melted Peas—We quote \$1.00—\$1.25.

SALT—Continues without change. The demand is moderate for slate at 12c—the latter for choice. A sale of a few cases Western Reserve was made at 16c.
